

## Results and Reporting

Table 5 presents estimates of equivalent scores on the STAR Reading score scale and the K-PREP for Reading. Table 6 presents estimates of equivalent scores on the STAR Math score scale and the K-PREP for Mathematics. These results will be incorporated into STAR Performance Reports (see *Sample Reports*, pp. 17–20) that can be used to help educators determine early and periodically which students are on track to reach the Proficient status or higher and to make instructional decisions accordingly.

**Table 5. Estimated STAR Reading cutscores for the K-PREP for Reading performance levels**
